

## Marketing to Customers

A Digital Cookie site isn't any good without customers! Learn how you can:

- Enter customer information
- Send marketing emails

1

On the Digital Cookie dashboard, click the "Customers" tab.

2

The Customers page is broken into two section -

- "My Cookie Customers" for entering customer lists
- "Connect with Customers" to learn more about marketing to customers

**Send Marketing Emails**

Next, select which of the three emails you would like to send at this time: “Open for business,” “There’s still time to order cookies,” or “Thanks for your support.”

To find out more about each of those emails and see a preview, go to the “Connect with Customers” section.

**Send Marketing Email**

Select the email you would like to send:

☐ Open for business ☐ Still time to order cookies! ☐ Thanks for your support

☒ Open for business

A full view of this email can be seen in the “Connect with Customers” timeline.

**Check the box for your selection.**

You can select different customers and send different emails to them or send the same email to all your customers at the same time.

When you have made your selection, check the box next to the email you are going to send and then click “Send Email” at the bottom.

### 3b Add Customer

To add customers manually (instead of importing), click the “Add Customers” button and you will get a screen for entering information.

**Add Customer**

[< Back to customer list](#)

**First Name:**

**Last Name:**

**Nickname:**  Add a personal hello to your marketing emails, e.g. Grandma, Uncle Mike.

**Email:**

**Address:**

**City:**

**State:**

**Zip Code:**

**Phone:**

**Notes:**

The only required field is name. However, to maximize your marketing, you should complete as many of the fields as possible. If you enter data in the “Nickname” field, the customer will receive their email addressed to the nickname instead of their first name.

When you are finished entering information, click “Add Customer”. The customer information will be stored.

If a girl attempts to add a customer that already has an email address in her customer list, the system will alert her that it is a potential duplicate and ask her what information should be maintained between the two records.

**Add Customer**

The email you entered is already in your customer list. Since an email address can only be used once, you will need to choose the customer information you would like to keep and merge these records for email: dctest664-22@girlscouts.org

| YOU ENTERED   | ON FILE                               |
|---|---------------------------------------|
| Name <span style="color: green;">●</span> Jane Dow      | <input type="radio"/> Suzie Greenburg |
| Address <span style="color: green;">●</span> 43215      | <input type="radio"/> --              |

| Notes <span style="color: green;">●</span> --           | <input type="radio"/> --              |

You can also add customers who have made a purchase and aren't in your customer list. See the Parent Orders Tip Sheet for details.

### 3c Delete Customer

We recommend keeping customer lists from year to year, but there may be times when you will need to delete one or more. To do that, select the box in front of the customer(s) you want to delete, then click on the “more” dropdown menu and select “Delete Customer”.

You will get a pop-up warning that deletion is permanent and confirming how many customers you are attempting to delete. To continue with deletion, click “yes”

**Delete Customer**

You want to delete 1 name from your customer list.  
If deleted, this cannot be undone.

### 3d Import

Clicking on the “More” drop down menu gives you the option to import a customer list.

The screen has instructions on how to import contacts. It also includes the template that you will need for importing. The template is on the second tab in the spreadsheet, titled “Import\_Customer.”

#### Import a List of Customer Names

You can take a copy of information you have in one program and use it in another program. When you do this, you are importing a file from one place to another.

Steps to import a customer list into Digital Cookie

1. Download our [Cookie Customers Template](#). There are helpful instructions in the file.
2. Type the names of customers who would like cookies into the file. Include their email addresses so you can send them a cookie marketing email. Remember to save the file.
3. When you have finished putting in the names of your customers, select "Import file."

Choose File

When the list is prepared and saved, use the “Choose File” button to select your file from where you saved it. Then click the green “Import File” button at the bottom. When it has successfully imported you can send marketing emails to those customers.

### 3e Export

The “More” drop down menu also gives you the option to export your customer list. When you choose “Export” a screen will pop up with instructions on how to export your customer list and save it to your computer.

Simply click the green “Export File” button and you will be asked where you want to save the file on your computer.

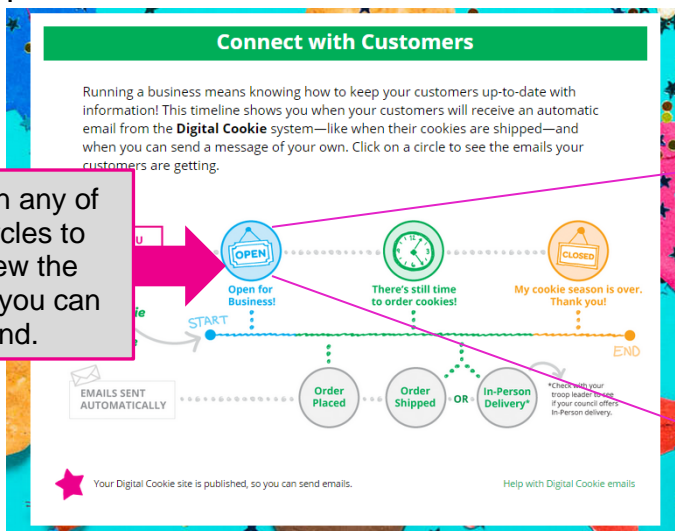

#### Export Your Customer List

Saving a copy of your customer list is easy. When you select the “Export file” button, a file will download to your computer with the name “DigitalCookieCustomers”. You can rename the file, if you wish, and save it on your computer.

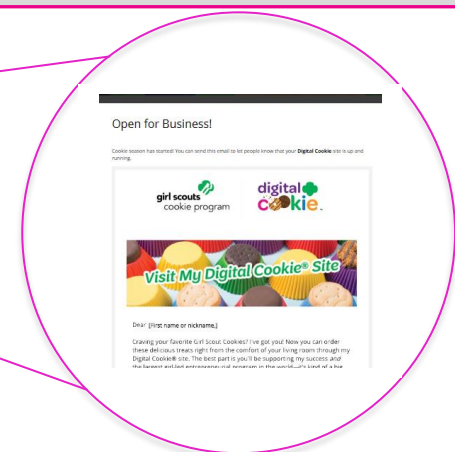

## 4 Connect with Customers

Learning about marketing to your cookie customers is a great skill that can increase cookie sales. In this section you can see the three different emails to send to your customers - and get suggestions for when to use them.
